The ideal candidate should have the following skills and attributes

Very good knowledge of the Microsoft Office Suite including:

Excel: Proficiency in use of pivot tables with OLE links, complex function creation, debugging & updating existing spreadsheet solutions, creating well documented & efficient new spreadsheet solutions.

Access: A good knowledge of Access including database design, OLE links, query creation & form design. An understanding of good database design and normalization would be advantageous.

Proficient in VBA (Excel\Access) to be able to both develop new and maintain current solutions and applications (2/3 years' experience in the job would be advantageous)

Proficient in Visual Studio & .Net in C# or Visual Basic.

Good Knowledge of SQL Server Management Studio and SQL (queries and stored procedures).

Prior experience in implementing technology solutions is preferred.

Excellent interpersonal and communication skills.
